4 FINANCIAL INFORMATION 2022

An ineffective portion arising from cash flow hedges was recognized in the income statement in 2022 for US\$1 million (2021: none, refer to note 4.3.9 Net Financing Costs). The maximum exposure to credit risk at the reporting date is the fair value of the derivative assets in the statement of financial position.

No ineffectiveness was recognized due to the IBOR transition, refer to note 4.3.27 Financial Instruments – Fair Values and Risk Management.

4.3.21 NET CASH AND CASH EQUIVALENTS

	31 December 2022	31 December 2021
Cash and bank balances	109	662
Short-term investments	573	358
Cash and cash equivalent	683	1,021
Net cash and cash equivalent	683	1,021

The decrease of the Cash and bank balances mainly relates to the significant progress in the projects under construction and the related use of cash from the financing facilities secured in 2021, partially covered by the additional project financing granted for FPSO *ONE GUYANA* and the cash generated by Lease and Operate business segment.

The cash and cash equivalents dedicated to debt and interest payments (and therefore restricted) amounted to US\$235 million as per December 31, 2022 (2021: US\$152 million). Short-term investment deposits are made for varying periods of up to one year, usually less than three months, depending on the immediate cash requirements of the Company, and earn interest at the respective short-term deposit rates.

The cash and cash equivalents held in countries with restrictions on currency outflow (Angola, Brazil, Equatorial Guinea, Ghana and Nigeria) amounted to US\$21 million (2021: US\$23 million). These restrictions do not limit the liquidity of the cash balances.

Further disclosure about the fair value measurement is included in note 4.3.27 Financial Instruments – Fair Values and Risk Management.
