(the cash pool leader of SBM Offshore group) amounting to US\$100 million (2021: payable amounting to US\$2 million). The lending conditions applied to the outstanding amounts between the cash pool leader and the Company are as follows:

### 4.5.4 CASH AND CASH EQUIVALENTS

Cash and cash equivalents are at SBM Offshore N.V.'s free disposal.

### 4.5.5 SHAREHOLDERS' EQUITY

The shareholders' equity in the parent company financial statements equals the equity attributable to common shareholders presented in the consolidated financial statements, except for legal and statutory reserves. The currency translation reserve, cash flow hedging reserve, capitalized development expenditure and investees equity non-distributable reserve are legal reserves that are required by Dutch law. Furthermore on the statutory reserves, pursuant to the Company's Articles of Association, a 'Protective Preference Shares' reserve is required to be maintained by the Company.

#### Legal reserve

	31 December 2022	31 December 2021
Investees equity non-distributable	1,609	1,511
Capitalized development expenditure	109	75
Translation reserve	(102)	(105)
Cash flow hedges	244	(270)
<b>Total</b>	<b>1,860</b>	<b>1,211</b>

The 'Investees equity non-distributable' legal reserve relates mainly to non-distributable profits generated by the co-owned entities (refer to note 4.3.29 Investment in Associates and Joint Ventures and 4.3.30 Information on Non-controlling Interests). The agreed principle in the applicable shareholders' agreements is that the shareholders shall procure that any available reserves are distributable after paying any expenses due and taking into account co-owned entity and applicable legal requirements. However, as unanimous decision of shareholders agreements in most of the co-owned entities is required to distribute the profits generated, the equity of these entities is classified as a non-distributable reserve under Dutch guidelines for financial reporting. On a regular basis the Company ensures that dividends are approved by the partners and distributed accordingly to the shareholders.

The legal reserve for 'investees equity non-distributable' and 'capitalized development expenditure' are formed by withdrawal from the distributable retained earnings. In the event of depreciation or impairment, the capitalized development expenditure will be reduced by adding it to the retained earnings reserves in the amount of the depreciation or impairment.

If either the currency translation reserve or the cash flow hedging reserve has a negative balance, distributions from the retained earnings cannot be made to the Company's shareholders equivalent to the amount of that negative balance.

#### Statutory reserve

The Management Board, with the approval of the Supervisory Board, has granted a call option to Stichting Continuïteit SBM Offshore to acquire a number of preference shares. As of October 1, 2022 and with reference to articles 5.5 and 5.6 of the Articles of Association of the Company, a 'Protective Preference Shares' reserve amounting to US\$26 million (2021: US\$0 million) has been created at the expense of the share premium reserve at the level of the Company. If and when Stichting Continuïteit SBM Offshore would exercise the call option to acquire preference shares, these preference shares may also be paid-up from the reserve of the Company. In addition to the legal reserves, distributions to the Company's shareholders are restricted to the amount of the statutory reserves.
