Definitions of indicators per Material Topic

Material Topic	KPI	Definition
Retaining and developing employees	1. Gender pay gap	1. The average compa-ratio female/average compa-ratio male.
	2. % under collective bargaining	2. The percentage of SBM Offshore employees (direct hires, no contractors) covered by collective bargaining agreements.
	3. # of new hires	3. Total number and rate of new employee hires during the reporting period, by age group, gender and region.
	4. # of average training hours	4. The average number of total training hours per employee in the current year.
	5. Employee turnover rate (%)	5. The number of employees who have left SBM Offshore in the current year (between January 1 and December 31 of the current year) compared with the aggregate of the headcount on December 31 of the previous year and December 31 of the current year; divided by 2, with the result multiplied by 100.
	6. % of performance appraisals completion	6. The percentage of performance appraisals completed for permanent, temporary (only from Brazil and the Netherlands) and JV staff (apart from <i>FPSO Kikeh</i>) of all employees that joined SBM Offshore before October 1, 2021 and were still with SBM Offshore on December 31, 2021 (5.2.4).

5.1.3 STAKEHOLDER ENGAGEMENT

SBM Offshore maintains open and active engagement with its external stakeholders through regular business interactions, including the Annual General Meeting, analyst and investor roadshows/meetings, analyst webcast presentations, press releases, website updates, surveys and desktop research.

The feedback obtained during the Materiality Analysis, explained in section 1.2, forms a key element of the backbone of SBM Offshore's stakeholder engagement program. The program is complemented by other interactions with stakeholders, in order to validate findings, and the feedback received feeds into management's approach to Materiality and long-term value creation.

Would you like to participate in SBM Offshore's 2022 Stakeholder Engagement or provide feedback for the 2022 Stakeholder Engagement? Please write to SBM Offshore at sustainability@sbmoffshore.com.

5.1.4 TASKFORCE FOR CLIMATE-RELATED FINANCIAL DISCLOSURE (TCFD)

MANAGEMENT APPROACH

Mitigating the impacts of climate change while meeting the needs of the future by facilitating the energy transition are key for SBM Offshore. The Climate Change Risk and Opportunity assessment is embedded in the portfolio of the COO and CFO. The Global Sustainability Director – who reports into the COO-line – prepares Climate Change scenarios and the Group Risk & Control Manager – ultimately reporting to the CFO – embeds Climate Risks and Opportunities into SBM Offshore's risk management processes and systems. This has been done with risk management professionals and SBM Offshore's Group Strategy and Sustainability teams first, followed by validation with business owners and the Risk Assurance

Committee. Any financial impacts identified in the process are disclosed in chapter 4 of this report.

Frameworks from the TCFD have been used to structure the assessment, more specifically, the TCFD's Technical Supplement. SBM Offshore has applied the following steps:

1. Ensuring Governance to integrate Climate Change Scenario analysis into Strategic Planning and Enterprise Risk Management.
2. Assessment of the Materiality of Climate Change-related risks and opportunities with business and functional experts.
3. Identification and definition of the range of Climate Change scenarios.
4. Evaluation of business impact per scenario together with business owners.
5. Identification of potential responses.
6. Documentation in a Climate Change outcome presentation and embedding in SBM Offshore's ERM system as well as Disclosure as per this Annual Report and internal presentations.

The outcome is used to future-proof the current strategy against Physical and Transitional Climate Change-related risks and opportunities. Identified risks and opportunities are embedded in SBM Offshore's Risk Management approach, explained in section 3.6 and SBM Offshore's Strategic Planning processes.

RISK MANAGEMENT

Climate Change risks and opportunities are identified and assessed against SBM Offshore's strategy in SBM Offshore's risk breakdown structure. When relevant, these risks are included in the detailed risk review and analysis is done for all tenders, projects and FPSO (asset) fleet operations that are part of SBM Offshore's portfolio. The Group Risk Manager facilitates the process of bottom-up Climate Change risk reporting to the Risk Assurance Committee (RAC) for consolidation purposes. The outcome of the
